MONTHLY REVIEW OF AFDC

APPLICATIONS RECEIVED

During the month of September, the Department of Human Services received 4,734 applications for Aid to Families with Dependent Children, a decrease of 40 (0.8 percent) from the number received during August. In comparison with the number of applications received during September of the preceding year, there was a decrease of 576 applications (10.8 percent).

APPLICATIONS DISPOSED OF

Investigations were completed on 4,642 AFDC applications during September. This number was 54.8 percent of the total applications on hand. It compares with 54.2 percent of the total number on hand for which investigations were completed during the preceding month and 62.4 percent for which investigations were completed during the same month of the preceding year. Two thousand eight hundred and ninety-nine (2,899) (62.5 percent of those on whose requests for assistance final decisions were made) were found to be eligible for assistance during September, in comparison with 2,725 applicants (61.5 percent of those investigated) approved the preceding month and 3,953 applicants (70.4 percent of those investigated) approved the corresponding month of last year. The number approved during the current month represented an increase of 6.4 percent over the number approved in August, but a decrease of 26.7 percent from the number approved in September, 1981. The rate of approvals for the AFDC Program increased over the preceding month by 1.0 percent and if a comparison is made with the corresponding month of last year, the rate of approvals showed a decrease of 7.9 percent.

ASSISTANCE PAYMENTS

Money payments for AFDC during September amounted to $6,542,407. This was an increase of 0.9 percent over the amount of money payments for August, but a decrease of 12.1 percent from the money payments for September of the preceding year. Payments were made for 55,663 families with 99,961 children at an average grant of $117.54 per family and $65.45 per child. The average grant increased over August by $0.16 per family and $0.17 per child. In comparison with the same month of last year, the average grant showed an increase of $4.90 per family and $4.30 per child.

CASES CLOSED

Two thousand one hundred and seventy-four (2,174) AFDC cases were closed during September, a decrease of 6.7 percent from the August closures. In comparison with the same month of the preceding year, the closures showed a decrease of 14.8 percent. Eight hundred and fifty (850) (39.1 percent) of the AFDC cases closed during September were closed because of a change in economic circumstances, chiefly employment, increased earnings, or receipt of OASDI, making these cases no longer in need in accordance with the standards of the Department. One thousand three hundred and twenty-four (1,324) (60.9 percent oof the total number closed) had had no change in economic circumstances, but were closed because they could no longer meet some eligibility requirement other than need, refused to comply with procedural requirement, or requested that their cases be closed.

Investigations were completed of 4,855 AFDC applications during October. This number was 56.8 percent of the total applications on hand. It compares with 54.8 percent of the total number on hand for which investigations were completed during the preceding month and 62.6 percent for which investigations were completed during the same month of the preceding year. Three thousand and seventeen (3,017) (62.1 percent of those on whose requests for assistance final decisions were made) were found to be eligible for assistance during October, in comparison with 2,899 applicants (61.5 percent of those investigated) approved the preceding month and 3,827 applicants (68.2 percent of those investigated) approved the corresponding month of last year. The number approved during the current month represented an increase of 4.1 percent over the number approved in September, but a decrease of 21.2 percent from the number approved in October, 1981. The rate of approvals for the AFDC Program increased over the preceding month by 0.6 percent and if a comparison is made with the corresponding month of last year, the rate of approvals showed a decrease of 6.1 percent.

ASSISTANCE PAYMENTS

Money payments for AFDC during October amounted to $6,630,843. This was an increase of 1.4 percent over the amount of money payments for September and an increase of 5.5 percent over the money payments for October of the preceding year. Payments were made for 56,124 families with 100,654 children at an average grant of $118.15 per family and $65.88 per child. The average grant increased over September by $0.61 per family and $0.43 per child. In comparison with the same month of last year, the average grant showed an increase of $3.91 per family and an increase of $3.08 per child.

CASES CLOSED

Two thousand two hundred and eighty-three (2,283) AFDC cases were closed during October, an increase of 5.0 percent over the September closures. In comparison with the same month of the preceding year, the closures showed a decrease of 81.6 percent. Nine hundred and nineteen (919) (40.3 percent) of the AFDC cases closed during October were closed because of a change in economic circumstances, chiefly employment, increased earnings, or receipt of OASDI, making these cases no longer in need in accordance with the standards of the Department. One thousand three hundred and sixty-four (1,364) (59.7 percent of the total number closed) had had no change in economic circumstances, but were closed because they could no longer meet some eligibility requirement other than need, refused to comply with procedural requirement, or requested that their cases be closed.

MONTHLY REVIEW OF AFDC

APPLICATIONS RECEIVED

During the month of November, the Department of Human Services received 4,502 applications for Aid to Families with Dependent Children, a decrease of 206 (4.4 percent) from the number received during October. In comparison with the number of applications received during November of the preceding year, there was an increase of 218 applications (5.1 percent).

APPLICATIONS DISPOSED OF

Investigations were completed on 4,623 AFDC applications during November. This number was 56.5 percent of the total applications on hand. It compares with 56.8 percent of the total number on hand for which investigations were completed during the preceding month of the preceding year. Two thousand nine hundred and seven (2,907) (62.9 percent of those on whose requests for assistance final decisions were made) were found to be eligible for assistance during November, in comparison with 3,017 applicants (62.1 percent of those investigated) approved the preceding month and 2,875 applicants (63.4 percent of those investigated) approved the corresponding month of last year. The number approved during the current month represented a decrease of 3.6 percent from the number approved in October, but an increase of 1.1 percent over the number approved in November, 1981. The rate of approvals for the AFDC Program increased over the preceding month by 0.8 percent and if a comparison is made with the corresponding month of last year, the rate of approvals showed a decrease of 0.5 percent.

ASSISTANCE PAYMENTS

Money payments for AFDC during November amounted to $6,684,148. This was an increase of 0.8 percent over the amount of money payments for October and an increase of 8.2 percent over the money payments for November of the preceding year. Payments were made for 56,615 families with 101,331 children at an average grant of $118.06 per family and $65.96 per child. The average grant decreased from October by $0.09 per family but an increase of $0.08 per child. In comparison with the same month of last year, the average grant showed an increase of $6.13 per family and an increase of $4.31 per child.

CASES CLOSED

Two thousand one hundred and seventy-eight (2,178) AFDC cases were closed during November, a decrease of 6.4 percent from the October closures. In comparison with the same month of the preceding year, the closures showed an increase of 24.4 percent. Eight hundred forty-two (842) (39.4 percent) of the AFDC cases closed during November were closed because of a change in economic circumstances, chiefly employment, increased earnings, or receipt of OASDI, making these cases no longer in need in accordance with the standards of the Department. One thousand two hundred and ninety-six (1,296) (60.6 percent of the total number closed) had had no change in economic circumstances, but were closed because they could no longer meet some eligibility requirement other than need, refused to comply with procedural requirement, or requested that their cases be closed.
